@<80D#6695> Not 5 hours. There are 8 speakers so far. If Each speech is even 15 minutes, that's 2 hours of talking. If each speech is 30 minutes that's 4 hours of talking. This is going in the dead of summer, the temperature will be nearly 100 degrees with 100% humidity and we will all be standing in it for quite some time.

So, to mitigate suffering, I propose 5 minutes.
